### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification,

Page 1, line 12, "S;" has been deleted.

Page 3, line 1, "carrier 2" has been corrected to - - carrier 11 - -.

The following is an examiner's statement of reasons for allowance: The prior art of record alone or in combination fail to disclose a sheet member holder as claimed having particularly a smoothly arched upright upwardly extending from the carrier in combination with a fluid and floating ornamental means filled dome-like cover shell defining a gap therewith for holding sheet member.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. VanLaningham Jr., Fell, Suzuki, Lin, Najbart, Shank discloses sheet holder but does not disclose a liquid or floating ornament dome shell with carrier having hole in combination with arch upright. Tsai discloses a liquid filled dome with carrier having hole and seal (60) but does not teach an arched upright upwardly extend to define a gap with the dome for holding sheet member. Fine et al discloses a liquid filled chamber (22), arched upright (38) but does not teach sealing the hole of the carrier

nor floating ornament means on the liquid and such would not have been desired as it would obstruct the viewing of the pictures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
